He further stated that despite the slow tempo the gelding failed to run on when placed under pressure and disappointed. A post race veterinary examination revealed cardiac arrhythmia. He indicated, in his opinion, the horse raced better on today's firmer surface, and whilst he had expected a forward showing, was a little surprised with the win. He also added that the step up in distance to 1400m and being able to obtain an easy lead had assisted the horse's performance, along with dropping to 51 kilograms with the claim of apprentice Tomlinson. Rider questioned re tactics - explained filly settled in a rearward position, which is consistent with normal racing pattern. After passing 500m when pace quickened filly was left flatfooted. In his opinion when pace quickened, racing between horses and not having a lot of room and today's track conditions may have contributed to the filly hitting a flat spot and being unable to quicken between the 500m and 300m but finished well over final 200m. S. Comments:Rider questioned re tactics in early stages where from outside barrier he rode forward and led race, in contrast to horse's most recent racing pattern - explained tendency to be slow to begin and for this reason rode with vigour early. Added when it began well and showed early speed rather than be caught in a midfield position wide elected to stride forward to take the lead when runners to inside did not show an intention to hold that position. Trainer confirmed not intention to lead but to be more positive and take up midfield position. Explanations accepted.
