settle in a more forward position, however the horse began awkwardly. He then stated at no stage of the race did the horse travel strongly and he was

obliged to niddle the horse in an attempt to hold a position in the middle stages. He added whilst the horse was positioned wide on the track he was

disappointed with the horse's finishing effort. A post race veterinary examination failed to reveal any abnormality, and a swab sample was taken.

She stated that, in her opinion, the horse had performed below expectations at its most recent 2 starts as a result failing to handle the heavy 10 track conditions. She added that in today's event she had removed the blinkers from the horse's gear and she felt this had assisted in having the horse settle during the middle stages of the race which she felt had a beneficial effect on the overall performance.

S. Comments:Connections advised that if the horse began well and there was no pace in the race, the intention would be to go forward. The horse was ridden accordingly. After passing the 1200m, when racing outside the leader, commenced to overrace and proved difficult to restrain. A post-race veterinary examination revealed that the horse had sustained lacerations to the lower off hind leg consistent with being galloped on. The veterinary surgeon also reported that the horse had bled from both nostrils. Trainer M. Lakey was advised that the horse will be ineligible to race for 3 months, and prior to start
