S. Comments: Raced three wide without cover for the majority of the event. When questioned regarding the improved performance, trainer M. Kropp stated that whilst the horse has only had three starts for his stable, he had elected to make significant gear changes of removing the blinkers and tongue tie off the gelding for this start, and he attributed the improved performance to these changes. Stewards noted the explanation, but nonetheless advised Mr Kropp they would expect the horse to hold its form.

He added that the mare travelled comfortably in the middle stages, however when placed under pressure proved disappointing. Trainer expressed some disappointment in the performance, but did advise that given the work the horse was forced to do in the early stages and that it was 5 weeks between runs, it would derive a fitness advantage from today's run and he will continue with its preparation. S. Comments:Rider questioned re disappointing performance. She said after being caught wide in the early stages she was forced to work up the hill to enable her mount to cross to a position closer to the rails, which she felt was to its detriment, however when placed under pressure over the concluding stages the gelding failed to run on and proved disappointing. Tnr said the horse has a history of racing poorly when unable to obtain cover in its races, which he felt was a major contributing factor to the performance. Vetted, no abnormalities.

Rider reported that when allowed to settle in a position in the second half of the field the mare in her opinion did not travel well and it was her view that the horse may be suited to settling in a position closer to the lead. A post race veterinary examination of the horse, which was making an abnormal respiratory noise failed to reveal any significant abnormalities. Trainer advised he would have his veterinary surgeon examine the horse. Trainer subsequently reported that the mare was vetted and scoped upon return to his stables with no abnormalities detected
